

Let's Talk inclusion

We're on the look out to create a team of volunteers with specialist knowledge or specific interests in one or more aspects of diversity and inclusion, who are willing to provide guidance and support to other volunteers or older youth members in the Scout County.

This will provide an opportunity for volunteers who are passionate about supporting diversity and inclusion in the county. Below are some of the area we are hoping provide support.

- Support to leaders on the integration and support for youth members with additional needs including:
 - o Disabilities
 - o Additional learning needs
 - o Challenging behaviours
- Support for leaders with respect to the integration and support of lesbian, gay, bisexual or transgender (LGBT) youth members and adults
- Support to older youth members on LGBT identity
- Adult and youth member gender equality,
- Support to leaders and parents on socio-economic inclusion and support
- Support to leaders on spiritual development and the exploration of different faiths

If you have enquired previously about these roles, then please make contact with Becca. We are now in a position to move this forward and develop our inclusion team.
